

Strawberry Hill Farm is a diversified, organic family farm in the Saint John River Valley about 7 km outside Woodstock, NB.

Our main focus is on growing over 50 types of vegetables, fruits, and berries for our weekly CSA boxes during the summer, fall, and winter.

We also raise livestock on pasture and our cows utilize portions of the farm that are not suited to growing vegetables. Broiler chickens, hens, and pigs raised outdoors are a key part of our nutrient cycling program and crop rotation helping to create an organic farm system where the many parts work together to produce high quality, nutritious food in a sustainable fashion.

We sell our products through our CSA, wholesale, our on-farm store and a weekly market in Fredericton.

Please visit our website for more details of our farm: <http://www.strawberryhillfarm.ca/>

Job Description

We are seeking seasonal full time field workers to join our farm team to grow, harvest and distribute quality organic vegetables.
